

Our professional, diverse team of flair bartenders & mixologist are committed to creating perfectly balanced drinks for your events.

Flirtina bartenders have developed a wide range of mouth-watering complex cocktails over the years. However, everyone's tastes are different, so because of this, remember our bartenders can modify cocktails to yours, you can see **cocktail twist recommendations below.**

Nearly all our **alcoholic cocktails can be created without alcohol or with Low ABV.**

We can mix up or recreate any signature, classic or new era cocktails you desire, however our site has an extensive list of cocktails for you, put into popular categories.

If you have booked a dry hire package with us, we write shopping lists with simplified ingredients so our customers can obtain stock with ease from local supermarkets.

For events we would recommend choosing no more than 6 cocktails to display on a menu allowing speed of service.
